SUMMARY

Experienced Full Stack Developer with 3+ years of expertise in React and its ecosystem. Successfully increased application efficiency ensuring high code quality. Passionate about leveraging technology to drive innovative solutions.

EXPERIENCE

Full Stack Engineer

05/2022 - Present

Tomoos

Marrakech, Morocco

- Leading migration from monolithic **SaaS** to **JAMstack (Next.js + Vercel)**, boosting Lighthouse scores from **62 to 95+** and reducing hosting costs by **70%**.
- Created a **design system** with **shadcn/ui + Tailwind**, components and cutting UI inconsistencies by **90%**.
- Created **reusable React components (TailwindCSS + Storybook)**, standardizing UI development and cutting design-to-code time by **65%**.
- Developed and deployed microservice-based applications with strong emphasis on maintainable code.
- Adopted **strict TDD (Jest, Cypress & React Testing Library)**, reducing production bugs by **75%** and cutting QA cycle time in half
- Designed **scalable database schemas** with optimized relationships, reducing query times and improving data consistency across **documents & tables**.
- Delivered **high-performance REST APIs and GraphQL**, reducing average response time and cutting client-side data over-fetching.
- Containerized **applications** with Docker, enabling seamless local development and reducing production deployment errors by **80%**.
- Automated **CI/CD with GitHub Actions**, deploying React/Node.js apps to Heroku on every push, reducing manual release overhead by **90%**.

React Native / Mobile Developer

11/2021 - 04/2022

Masarat App

Rabat, Morocco

- Developed seamless user interfaces using **React Native, Ui Kitten & Typescript**, enhancing user engagement metrics by **30%** through improved UI/UX design.
- Designed **secure private routes** and optimized navigation flows using **React Navigation**, cutting unauthorized access incidents to **zero** and improving UX efficiency by **30%**.
- Integrated **Firestore Authentication** with **OTP-based validation** while maintaining a **99% successful login & register rate**.
- Implemented **multi-language support (i18next)**, enabling localization for **4+ languages**, increasing user adoption..
- Managed complex app state using **Redux Toolkit** and **custom hooks**, reducing redundant API calls by **50%** and improving data consistency across components.
- Collaborated in an **Agile (Scrum) team** of 5 developers, participating in **daily standups, sprint planning, and code reviews**.
- Partnered with **UI/UX designers and product managers** to translate Figma prototypes into functional React components, improving feature alignment

PROJECTS

E-Manager

PWA for managing a store's stock, invoices, sales, loans and deals. developed with MaterialUi, Redux, Mongoose, Cloudinary & Express. <https://github.com/Th3You7/emanager>

HolyQuran

Responsive web app to listen to Quran. it built using Mui, React Hooks, express & mongoos. <https://github.com/Th3You7/holyquran>

KEY ACHIEVEMENTS

Flexibility

Worked with dozens of techs and envirements, adapted to any tech stack rapidly.

Enhanced System Performance

Optimized application processes and increased efficiency by 25%, improving client satisfaction and user retention rates.

Decreased Deployment Times

Streamlined CI/CD processes, reducing deployment times by 40% and ensuring faster delivery of client projects.

Improved Code Quality Standards

Established automated testing solutions, implmented TDD pattern.

EXPERIENCE

ReactJs Developer

11/2019 - 10/2021

Freelancer

Location

- Developed user interfaces using **ReactJs & Material Ui**.
- Architected scalable state solutions using **Context API, useReducer** and **Redux for global data**.
- Modernized legacy React app by replacing **class components** with Hooks (useState, useEffect, custom hooks), cutting development time for new features to simpler state logic
- Redesigned navigation flows using **React Router** with **nested routes** and **protected auth routes**, boosting user task completion rates and eliminating 404 errors.
- Designed RESTful Express routes with JWT authentication, **reducing API response times** through optimized middleware chaining and proper HTTP status code implementation

EDUCATION

Bac+2 English Studies

08/2014 - 06/2017

Sultane Moulay Slimane University

Beni mellal, Morocco

Bachelor of Science in Physics

08/2011 - 06/2014

Ennasr High School

Location

LANGUAGES

Arabic

Native

English

Proficient
